

Kiddie Prep School

TEAM NEWS

**March
2009**

News...

- **Bumping Kids** - When a child is bumped from your room, leave a note on the attendance clipboard for the remaining teacher to know where the child is. When a child is bumped into your room, immediately write down the name of the new child. This will help the parents easily find their child at the end of the day. This is VERY important now that the days are getting warmer. Most classes will be using the playground in the afternoon and it will be important to keep track of each child as they are bumped or as they leave your care for home. Please plan ahead with this system of keeping track.
- **Shopping List** - You must look in the food tub and the supply closet *before* writing things on the shopping list. Cindy is trying to be very thrifty when it comes to helping the teachers continue their creativity *and* staying within the board's authorized monthly budget.
- **Website** - Continue checking the KPS website for updated information. We will be creating links for all staff meeting minutes, newsletters and other teacher resources. The seniority calendar and current events calendar is updated throughout the day until 2:00. Melanie thanks everyone for being patient with her and the new website updates.
- **CONGRATULATIONS JILL!** Pitter patter of little feet are on the way for Jill and her husband. They will be celebrating the birth of their first child in September, 2009.

Q: "If we are going to talk about changing our curriculum, I believe that we need to take a vote on it."

Anonymous Bag

A: This is an interesting question because we are not looking into changing the curriculum. Either this question is based on a rumor or the office does not understand the question. Deb and Cindy are constantly looking for Christian based supplemental ideas for the curriculum but we have never discussed changing. If this did not answer the questions please let us know.

Affirmation Box

- There were no affirmations for the month of February.
