There couldn't be one thing I like the best-it is all great-but if I had to say best - it would be the staff!	
Caring - Responsible teachers.	My daughter has progressed so much since she started three yrs.

I feel safe leaving my daughter in KP care. I don't worry about here while I'm at work because I know she's in great hands. #1 priority.

My children really seem to learn a lot about the Lord. They also learn a lot academically.	
Everyone at KPS has been very helpful with facilitating my child to a new environment. It is a great feeling to know that my child	
is well taken care of by caring people while I am away at work.	The educational content.

3. Are there any areas you would like to see improved or changed?

more computer use and activities.	more foreign languages
A discount to families that pay for full month/automatic withdrawal from accounts.	
The bus sometimes blocks cars.	None, everything is great.
I often wanted to know how our child did, but the sheet was too general & the teachers were already gone.	
Communication with parents about the entire year calendar (day closed). We need more warning about upcoming events too.	
Parents more involved with daily activities.	No.
I would like to see timeouts being given even to children under 3.	None that I have found so far.
You guys do a spectacular job with everything, so nothing comes to mind. Keep up the good work.	
The teachers rotate or change rooms so I often don't know the name of someone new for a while. It would be great to have a	
"welcome" sign or an introduction.	Nap time lessoned.
The spring program is so large & seating is an issue. Maybe rent/utilize a larger facility.	
I feel I know everybody by face/name or relationship except "Deb" the great lady that runs this program. Where is she?	
Doing great!	Continuity of creativity from one class to another.
Not at this time! We are more than satisfied	Not at this time.
I wish there were programs for infants as well and not just ages 2-5. I love KPS!	
None that I can think of. All seem to be very organized @ proactive.	Not at this time.
Better adjustments of rooms so kids are in age appropriate rooms.	
Alternate choice of a food item if you know for sure the child doesn't like a certain thing. Rather than going without eating.	
Maybe tell the children they have to complete the assigned homework to prepare them for kindergarten.	
A little more information regarding procedures and maybe a little more help on the first day.	
More communication between intake classroom teachers.	
I would like to see the cleanliness of the rooms (ex: floors, walls, ceilings, bathrooms).	
It's a little pricey.	

4. What could we do differently to improve communication between the parents and the school?

Have a detailed - child specific email per month.	bring back "all about me sheets"
That area is fine.	More email with parents, less signs outside the room!
I feel communication is very good with the letters we receive.	Nothing else.
Nothing at this time.	website.
Nothing! I think the communication is great!	Make things more available to part-time parents
Have bulletin boards by each classroom providing info for that class. Rather than taping to walls or clipboard holder.	
The ability for parents and teachers to communicate by email.	Use e-mail more. Sending notes in the kids cubbies works well.
Can't think of anything. I look forward to the daily update every day.	Darla is a great teacher & is very open and easy to talk to.
The newsletter is great! I also enjoy the daily info papers sent home on their activities. It helps to plan the rest of our evening.	
I don't feel that anything needs to be improved. It is great the way it is.	KPS does a great job of communication.
I think there is excellent comm. between the school and parents.	Not sure.
Mail things directly to the home. Some papers get mixed up in the shuffle of kids papers.	
The newsletters are great. Parents need to read information given to them and communication is great.	
If my child gets his name on the board I would like to know. (Not hear it from him).	
The teachers rotate or change rooms so I often don't know the name of someone new for a while. It would be great to have a	
"welcome" sign or an introduction.	Send home newsletters via email (just a suggestion)
I think you all comm. very well, at least I have had no problems.	Weekly information on curriculum activities.
Have daily or weekly notes from teachers about areas the child is struggling on that the parent is concerned about.	
Add a category to "My Day at School" called "Behavior"	
Staff email would be a convenient way to get to know staff better - open house? Sliding fee scale for parents that aren't eligible	
for CANI but still struggle.	I am satisfied.
