## Additional Comments:

- Hard to schedule with work hours
- Would like more time. 15 minutes was not enough.
- Maybe schedule a few conferences per day on multiple days rather than all of them in 2 days.
- It would be helpful to perhaps provide the parents with some point of comparison/reference with respect to how the child's development compares to other children of the same age.
- It would be helpful to perhaps provide the parents with material in how can the parents help the child develop those areas where he/she might be lacking.
- I didn't need to use all of the time provided.
- I wasn't expecting to meet with both of the teachers. It was incredibly nice to share personalities, growth, ideas, etc...
- We exceeded the time provided and they were very gracious to take the time.
- Scheduling was not a problem because when it comes to our children – we have to make the time – whether it be “convenient or not”.
