

## ***Staffing Ideas and Suggestions***

Bring in three teachers around 8:30 - 9:00 to stay until 5:00
Have an afternoon teacher.
Have a floater to help with fieldtrips on high days
Make sure teachers are actively involved with the kids - not sitting around chatting while the kids go wild.
One thing I didn't care for was how 1/2 hour breaks were used as a planning time as well. Not a true break. Not sure how to remedy that though.
Appoint school-ager staff early enough that we can help with a lot of the planning.
Age variety of teachers
Some prep time for clubs
Once all teachers arrive, quick team prayer over day and trip.
All teachers have walkie-talkies at all times (know where someone is if they leave the room)
For devotions, have each teacher start with a small group then rotate groups every two weeks to get to know all the kids.
We need to ask the kids for some fieldtrip ideas too.
